

Hotels around Kostelec

We have investigated some accommodations for the conference participants, each close to Kostelec and easily accessible via public transport (busses 381 and 387 operating between Kostelec and station Haje in Prague (this is the last station of metro line C, see also the travel pdfs)).¹

The hotels should be booked directly by the participants. Most of them are reserved for us until the **end of August**, and since they provide us a **special price**, please mention that you are conference participants.
